Chapter 1

SOUND4 MicroMPX.CL Library

1.1 General usage

This library can be used with SOUND4 IMPACTFM.CL processing. This extension supports Live processing.

1.2 Installation

You just have to put this library, with its MicroMPX's software companions, in the same directory of the process, and it will detect and use it, if possible.

You can check in the About window, it should appear with its version.

You will need a `MicroMPX.CL` license activated by SOUND4.
